WORK EXPERIENCE

Jan 2023- Present
Apprentice Lab | Co-founder , Frisco Texas, USA

- As a co-founder, I led curriculum development and managed a team of educators, ensuring the delivery of comprehensive courses in web development.
- In my role as an instructor, I facilitated hands-on learning experiences and guided students in mastering coding concepts and industry best practices.

May 2020- 2022
Freelance | Remote
Full Stack Developer

- As a freelance full stack developer, I collaborated closely with clients to understand their needs and translate them into custom web applications.
- Leveraging my expertise in both front-end and back-end development, I delivered high-quality solutions that optimized performance and user engagement.

Jan 2023 - 2024
Remote
Instructor

I guided students through the intricacies of software development methodologies, fostering a deep understanding of coding principles and practical application in real-world projects.
